

2022 CENuM Workshop

Friday, 2 September 2022

Hadronic Physics 1: Hadron Physics 1 (13:30 - 15:10)

-Conveners: MinJung Kweon

time	[id] title	presenter
13:30	[2] Light quark distribution functions in a heavy baryon	SON, Hyeon-Dong
13:55	[3] Axial-vector transition form factors of light and singly heavy baryons in the chiral quark-soliton model	SUH, Jung-Min
14:20	[4] The axial-vector meson in the coupled-channel approach	CLYMTON, Samson
14:45	[5] Single transverse spin asymmetry of very forward neutral pion	KIM, Hee-Jin
